

Message from the President

Dear Members & Colleagues,

It was great to see many friends and members joining in the APF members' meeting at the World Conference this August in England. I am thankful for your coming and discussion. The minutes of this meeting is available on the APF web site and this online newsletter.

I am also delighted to welcome new members joining in APF-WCGTC this summer. The updated name list of APF members is also available on the APF web site; however, any changes or corrections can be submitted with e-mail to APFgt@deps.ntnu.edu.tw.

This newsletter includes a calendar of events listing conferences information, news, and reports. In particular, the 10th APCG conference is a biennial APF conference providing professional opportunities for all APF members gathering together and exchanging experiences on the development and education of gifted and talented children. The organizing committee of 10th APCG conference is working hard towards developing conference applications and arrangements. This conference is now inviting submissions; the time for submitting manuscripts is January 2, 2008. The complete contents are available online at <http://www.10apcgifted.org/index.html>.

Please do mark your calendar for the 10th APCG conference: July 14-19, 2008 in Singapore, and make arrangements to attend other coming gatherings announced in this online newsletter and get to know better of gifted education in Asia-Pacific region.

Any conference reports are welcomed for the next APF newsletter, which is scheduled to be announced in April, 2008.

Again let me thank you for your continued support and encouragement of APF. I look forward to seeing many of you at any of these events.

Sincerely yours,

President, APF of the World Council of Gifted and Talented Children
